## Summary

Dedicated Computer Science Engineering student with hands-on experience in programming, web development, and software projects. Proficient in Java, and SQL with a keen interest in problem-solving, software development, and building dynamic web applications.

## Education

<b>B.Tech. Computer Science &amp; Engineering</b> Rajiv Gandhi University of Knowledge Technologies, Nuzvid	<b>Expected: 2025</b> CGPA: 7.8
<b>Pre-University Course (PUC)</b> Rajiv Gandhi University of Knowledge Technologies, Nuzvid	<b>2019 – 2021</b> CGPA: 8.55
<b>High School (SSC)</b> Government High School, Vellatur	<b>2018 – 2019</b> GPA: 9.8

## Achievements

- Completed Over 200+ Problems on LeetCode: Earned 50 Days and 100 Days Badges.
- Received an Internship Completion Certificate from Edubot Software Services.
- Completed 'Fundamentals of Web Development' course on Udemy.
- Completed 'Git & GitHub' course on LinkedIn Learning.
- Secured Mandal First in 10th Class.

## Experience

<b>Full Stack Development Intern</b> Edubot, Vijayawada	<b>Jun 2023 – Aug 2023</b>
--	----------------------------

- Completed internship at Edubot Software Services, gaining practical experience in full-stack development.
- Developed and deployed dynamic web applications using Java, Spring Boot, and MySQL.
- Built responsive and user-friendly interfaces using HTML, CSS, Bootstrap, and React.

## Projects

<b>Online Examination System</b> Developed a platform for student registration, exams, and result processing, integrating REST APIs for server-side logic, authentication, and dynamic data handling.	<i>Technologies: MySQL, PHP, HTML, CSS, Bootstrap</i>
--	---

<b>Connectify Like Minds</b> Built a collaboration tool for students with secure login, dynamic course catalogs, and group functionalities, using RESTful APIs for smooth front-end and back-end communication.	<i>Technologies: React, Spring Boot, SQL</i>
--	--

<b>Java JDBC Projects</b> Created database management systems with Java and JDBC, implementing REST APIs to handle CRUD operations and data retrieval.	<i>Technologies: Java, SQL</i>
---	--------------------------------

<b>Tic-Tac-Toe Game</b> Built an interactive Tic-Tac-Toe game with React, ensuring responsive design with Bootstrap and CSS for a seamless user experience.	<i>Technologies: React, Bootstrap, CSS</i>
--	--

<b>E-commerce Shopping Website</b> Developed a responsive shopping website with HTML, CSS, and Bootstrap, adding dynamic functionalities using JavaScript for cart management and product updates.	<i>Technologies: HTML, CSS, Bootstrap, JavaScript</i>
---	---

## Skills

- **Programming Languages:** Java, C, JavaScript, SQL, greSQL
- **Web Development:** HTML, CSS, Bootstrap, JQuery basics
- **Frameworks & Tools:** ReactJS, Spring Boot, Git, REST APIs, Docker (basics).
- **Database Management:** MySQL, DBMS, Post-
- **Problem-Solving:** Data Structures, LeetCode, HackerRank
- **Soft Skills:** Good Communication, Team Collaboration, Adaptability, Problem-Solving, Creativity and Innovation, Eager to Learn, Quick Learner, Active Listening.
